PERSONAL STATEMENT

An aspiring dynamic software developer driven by a desire to uplift individuals around me on a professional level. I excel in utilising Agile development and creative problem-solving to boost productivity and stakeholder engagement. My technical proficiency, collaborative communication, and strategic thinking would make a great asset in a team.

SKILLS

- Technical Expertise (Agile development, Software Development Life Cycle, Programming Languages, IT and Computing Skills)
- Leadership and Soft skills: effective communication, interpersonal skills, networking with stakeholders, strong organisational skills problem solving, task time and project management skills and leadership skills
- Business Awareness: Money management and customer service skills.

EXPERIENCE

SPORTS DIRECT, BEDFORD - *Stock Control*

MARCH 2022 - SEPTEMBER 2022

- Data analysis of monthly stock intake and sales, managed stock and conducted counts, ensuring accurate orders and profit margins. Collaborated in a busy team, excelling from shelf loading to customer service, maintaining a clean and organised environment.

MO'S FISH AND CHIPS, BEDFORD - *Call Handler*

MARCH 2020 - APRIL 2022

- Receiving incoming calls, whilst maintaining effective communication and customer care. Often fixing the computer order system when it crashed.

Sainsbury's Warehouse, BEDFORD - *Warehouse Operative*

August 2023 - September 2023

- Handling stock, storing stock in the right location.

Lidl, BEDFORD - *Store Assistant*

September 2023 - Current

- Main tasks covering the shopfloor, mainly handling stocks and storing stocks. Collaborated in a busy team, excelling from shelf loading to customer service, maintaining a clean and organised environment.

EDUCATION

BIDDENHAM UPPER SCHOOL - *GCSE's* ***SEPTEMBER 2021 - JUNE 2023***

- 9 GCSE's A*-C including English, Graphics, IT and Business.

BEDFORD COLLEGE - *COMPUTER SCIENCE-* ***SEPTEMBER 2021 - JUNE 2023***

- DDM

ADDITIONAL INFORMATION

- Short courses that I have completed are Cisco NetAcad, Immersive Labs, Google UX Course. I have also successfully invented a prototype for an App called YouthCode (an app for aspiring software developers) via 'figma.' Outside of work, I like to keep myself busy by increasing my skills and experience, whereby I create poster designs for communities and small businesses, by the use of 'Adobe Photoshop, Illustrator and more'

All design and work are available upon request.
